TBKart | Passion and Innovation

With a very long history of almost 100 years in the mechanical technology, today TBKart is a highly specialized manufacturer of Racing and Rental Karts. While Racing division is constantly working to always offer high performance chassis, capable of top results in worldwide competitions, TBKart Rental goal is to transfer all the competence, quality and knowledge of the company into a family of efficient, reliable and easy to maintain rental products, containing all the best kart technology available on the market.

Con una lunga storia di quasi cent'anni nel campo della tecnologia meccanica, oggi TBKart è un produttore specializzato di Kart da Noleggio e da Competizione. Mentre la divisione Racing si impegna costantemente per offrire sempre telai da grandi prestazioni, in grado di raccogliere massimi risultati nelle competizioni internazionali, l'obiettivo di TBKart Rental è quello di coniugare tutta la propria competenza, la qualità e l'esperienza del marchio in una famiglia di prodotti da noleggio efficienti, affidabili e di facile manutenzione, allo stesso tempo dotati di migliori tecnologie dell'ambito kartistico disponibili sul mercato.

INNOVATION

I.S.A.C by TBKart. The Most Innovative System Worldwide

TBKART's commitment towards safety is of utmost seriousness. Our TBKART brand has been carrying out for a few years development and innovation projects to improve the safety of its products destined to the go-kart rental market. During the years, important accessories have been studied and implemented as primary equipment on our products, aimed at ensuring utmost safety and comfort for drivers. The innovative anti crash system I.S.A.C (Innovative Schock Absorbing System) grant a special driving feeling and funny in full compliance with own safety. The idea of development was born with the numerous costumers request in the safety matter regarding crash. I.S.A.C is available like first equipment on our new model TBKART R15.

I.S.A.C by TBKart. Il sistema di sicurezza piu' innovativo al mondo.

L'impegno di TBKART nei confronti della sicurezza è di assoluta serietà. Il nostro marchio TBKART svolge da diversi anni alcuni progetti di sviluppo ed innovazione per la sicurezza dei propri prodotti destinati alle linea kart da locazione. Nel corso degli anni sono stati studiati ed introdotti come primo equipaggiamento sui nostri prodotti importanti accessori, volti proprio a garantire la massima sicurezza e comfort alla guida. L'innovativo sistema antiurto I.S.A.C garantisce all'utilizzatore un feeling alla guida ed un divertimento nel pieno rispetto della propria sicurezza. L'idea di sviluppo è nata dalle numerose richieste in materia di sicurezza contri gli urti da parte della clientela. I.S.A.C è fin da subito disponibile come primo equipaggiamento sul nostro modello TBKART R13.

Rental R15

R15 | Power of Quality

The R15 is the flagship of the Rental line-up. It is designed and developed from the ground up, to meet the needs of the professionally run rental circuit and their clients. Its advanced technologies, low cost of ownership work in concert with its on-track performance to provide a fantastic experience for the drive, and maximize revenue generation for the track. All the while, our innovative technologies such as our patent shock absorbing system (ISAC) work seamlessly in the background to maximize safety.

R15 rappresenta il top di gamma della famiglia Rental. Progettato appositamente per i professionisti del noleggio, questo Kart è equipaggiato con le più avanzate soluzioni tecniche, come ad esempio il brevettato sistema antiurto "ISAC" o l'impianto frenante ad alta efficienza di impostazione automobilistica. Come tutti i prodotti TBKart, un particolare riguardo è stato dato alla massima facilità di manutenzione, alla fine di ridurre i costi di utilizzo e minimizzare i tempi degli interventi.

Rental R15 Sport

Standard equipment

- CE Certification
- Adjustable pedals
- Bearing supports model "Fast" decomposable
- Stub axle diameter 20 mm reinforced
- Aluminium wheels reinforced

- ROTAX 21hp

R15 Sport | Maximum Flexibility

The R15 Sport is based on its big brother the R15, but with a few modifications to make it more suitable for endurance and club kart racing. The R15 sport is equipped with our industry leading safety features, such as the patented shock absorbing system "ISAC", and high efficiency automotive grade brake system. The R15 Sport is a perfect addition to any karting facilities fleet interested in providing their clients with the next level of racing.

R15 Sport nasce specificatamente per soddisfare le esigenze delle attività rental "alternativo", come gare aziendali, campionati e gare endurance. R15 SPORT è realizzato seguendo la stessa tecnica di produzione dell'intera gamma rental. Questo modello è inoltre equipaggiato con il nostro sistema antiurto innovativo "ISAC", e con impianto frenante di produzione automotive. R15 SPORT è la giusta scelta per qualsiasi circuito interessato a proporre ai propri cliente il passo successivo come avvicinamento al mondo racing.

R13 Mini | Safe and Fun

Developed with the younger driver in mind, the "Mini" is designed to deliver the maximum amount of fun in an easy to use platform, while maintaining all the safety features available in our adult models. The multitude of options available to the "Mini" platform, make it a must have for circuits interested in a program for their younger drivers.

La serie "Mini" dei modelli Rental nasce per mettere a disposizione la tecnologia e la qualità di TBkart anche ai guidatori più giovani, con la massima attenzione alla sicurezza e alla facilità d'uso. Nonostante le dimensioni più ridotte, la serie Mini offre tutte le dotazioni standard e tutti gli optional disponibili per la versione adulta
